Zenitel-Client

Zenitel Intercom Client for PC

Automatic Volume | HD Voice | Automatic Gain Control | Active Noise Cancelling

Open Duplex

Description

Zenitel-Client is an intercom client for the PC. It is designed to be used as a control room operator's intercom or office intercom. Intended users include: site security or control room operator, payment boot operator (parking and toll-roads), operator handling incoming calls, and in-office standard calls. It provides Turbine-class Audio with echo cancellation and noise reduction.

Support for IC-EDGE

Zenitel and its subsidiaries assume no responsibility for any errors that may appear in this publication, or for damages arising from the information therein. Zenitel products are developed and marketed by Zenitel. The company's Quality Assurance System is certified to meet the requirements in NS-EN ISO 9001. Zenitel reserves the right to modify designs and alter specifications without notice.

ZENITEL PROPRIETARY. This document and its supplementing elements, contain Zenitel or third party information which is proprietary and confidential. Any disclosure, copying, distribution or use is prohibited, if not otherwise explicitly agreed in writing with Zenitel. Any authorized reproduction, in part or in whole, must include this legend; Zenitel – All rights reserved.

VS-Client works as an IC-EDGE intercom device.

Turbine Class Audio

Includes acoustic echo cancellation, noise reduction, volume control and audio device selection.

Lite and Full Mode

Lite mode is a non-intrusive minimalistic interface that can be easily integrated into existing systems. Full mode provides full keypad and additional call panels like call history and contacts.

Full Numeric Keypad

Provides full call control with call transfer, hold/resume, mute.

Call History

Shows a list of all incoming and outgoing calls.

Address Book (Contacts)

Contacts can be created and added into a contacts list. It also supports the import and export of contacts data.

Favorites

A contact can be marked as favorite for speed dial. Works also with keyboard shortcut.

Function Keys

Special function keys are available during a call (e.g. send DTMF – open/close door).

Call Control with USB Button

Calls can be initiated or accepted with an optional USB button. It also provides basic call control, like Push-To-Talk / Duplex conversation mode switching.

Multiple Language Support

English is the default language on the GUI, but other languages are available.
